Disagree

1.6.1 Disagree

Agree

Is there anything else you would like to tell us about this issue?

As a long term owner of a much-loved house in beautiful Pukawa, I write to plead that you do NOT consider introducing wheelie bins into the village - the topography, nature and geography of Pukawa would make this a nightmare to operationalise - so many holiday houses and short term visitors, not to mention our steep driveways. We are very happy with our bags and please do not even think of changing it.

Thank you very much for accepting our submission

We have a holiday home at ■ Motutaiko St, Kuratau.

I think that the current system needs to change but not to a bin based system.

Because most of the houses in the Omori, Kuratau area are holiday homes, the provision of bins to every household won't work well.

For example, we are at our house on an irregular basis. If we leave bins at the curbside on a Sunday, then go home, what will happen to the bins after they are emptied. We may not be back for several weeks. The bins will create an eyesore until they are brought back onto our property.

The bins are likely to be blown around in the wind and become a road hazard.

To keep costs under control from a rates perspective, our preference would be to give an option to the

permanent residents for them to have bins collected as per your proposal. For all non permanent residents or for those who don't want to have bins, keep the user pay system of bags and recycling bins. These would need to be delivered to the current transfer station for those who opt out-of the bins. and add a food waste collection service at the transfer station.

Tūrangi

1.2 Next 10 Years  
Do less

What do you think we should do more/less of? (be specific)

I live in mainly a holiday home area of Taupo, while the bins are an OK idea they will not suit holiday homes that put out their bins on the day they vacate their property and these collection bins will stay on the roadside. that is unsuitable for our area.

Who will clean food scrap bins that become infested with bugs and vermin because the collector or house holder left the locking handle out of the locked position and it has stayed kerbside after collection. We are trying to eradicate vermin and unseen animal night activities as per pest free program!!

I do not require any further collection bins, I am happy with MY control process prior to rubbish collection

I will not be putting any more rubbish out to justify extra costs involved in your new extra bin systems

1.4 Tūrangi Wastewater  
Disagree

1.4.1 Disagree  
Strongly Agree

Is there anything else you would like to tell us about this issue?

Taupo many years ago accommodated treated wastewater into a land/forestry environment via piping and has been a huge success why could Turangi not have these processes. My understanding is that very good income is achieved from both forestry and lucerne sales.....Turangi and its area could have income from that process as well

1.6.2 Strongly Disagree  
Strongly Agree

Is there anything else you would like to tell us about this issue?

Stick with "pay-as-you-throw" - a "user pays" system is a much fairer and cheaper option for those who do not generate a lot of waste. The additional cost for a selection of wheelie bins is not necessary while most households are suffering with the cost of living. Finding a place to store bins on smaller properties could also be an issue, especially if people already have a 240L green waste/compost bin - doing their bit for the environment by not sending garden waste to landfill.

1.7 Housing  
Disagree

1.7.1 Disagree  
Agree

Is there anything else you would like to tell us about this issue?

Council should stick to providing "essential" services, not get involved with housing development.

### Feedback

1.1 Local Community  
Taupō

1.6 Bag it or Bin it  
Disagree

1.6.1 Disagree  
Agree

Is there anything else you would like to tell us about this issue?

For me personally, the amount of rubbish that I create means that I rarely use the rubbish collection, I leave a recycle bin out most weeks that is 1/2 full, the glass bin goes out approx twice per year and the general waste about every 3 weeks. On that basis I would prefer less cost on the rates and a pay-as-you-go service as it makes more sense for me. Where we live currently there is little or no issue with bags and animals but previously living in Kuratau, it was often an issue - however some people solved this by hanging their bags off the ground. Most of the issues come from those who are not permanent residents and may leave bins out days before the recycle/rubbish service is due - not sure this is fixable as it relies on people being sensible with their waste.

1.9 Community Funding  
No

Please explain why you agree or disagree with these changes.

There is such a variety of funding that comprises Community Funding that there is a possibility of the 'first-come-first-served' mentality taking over in the new regime - this could mean that one type of Community groups are able to obtain a larger amount of funding than others, simply because they 'got in first'. I would like to see more clarity around how the funding would be divided up/applied for and how decisions are to be made on the validity of requests eg if a music group applies for funding at the same time as a sports group and the committee allocating funds is more sports biased, would the music group lose out?

There has also been some mis-understanding over what is available to be applied for, many groups have a set of assets that are tangible and used until they fall apart eg sports groups have equipment to enable them to function (balls, goals etc) - music groups however require music to be purchased in order to continue to

enjoy the experience of performing - this is expensive (approx \$100 per piece) and has previously not been eligible for funding, even though it is the core foundation of the group. I would like to better understand the requirements for funding requests and for them to be equal across all types of community groups.

I understand that there is a Arts & Culture Action plan, I would like to see how this is linked to the Community funding as this is not clear.

There are very different needs between different community groups, 'ARTS' do not all have the same needs, this encompasses music, dance, painting, drawing, pottery and potentially literature. Equally 'Sports' have different needs to any and all of the Arts groups, I would like to see some understanding and allowances for these differing requirements.

On a side note, I would love to see the Great Lake Centre more readily available to Community Groups at a rate that they can afford and with a guarantee that their booking will not be usurped by a higher fee paying group as i understand is currently the case. Performance groups really struggle to fundraise when there is not a suitable venue to perform in - we tend to use the local churches which are not ideal spaces for medium sized performing groups. To be able to book a concert in the Great Lake Centre would help immensely with creating the right atmosphere and generating a reasonable audience which in turn would help with fundraising.

Disagree

1.6 Bag it or Bin it  
Agree

1.6.4 Agree  
Talk to Mynoke re most effective composting using worms

1.7 Housing  
Agree

1.7.3 Agree

Somehow Council has to ensure those families most in need that require housing get priority, and the homes do not get put on the open market for speculation.

Also houses should be compact, low energy, low carbon homes that produce and often store its own energy, resulting in low carbon emissions being produced in the running of the home, including heating the home and hot water, powering electrical appliances and more. and timber construction materials which have carbon negative properties.

### 1.8 Development Contributions

Yes

Is there anything else you would like to tell us about this strategy?

Reserves and reserves contributions are very important nowadays to provide open space for recreation and general wellbeing, due to smaller residential lot sizes and generally larger houses. Development Contributions should take ongoing maintenance of these areas into account when they are set.

### 1.9 Community Funding

No

Please explain why you agree or disagree with these changes.

It is hard to figure out how this funding will be allocated to different community groups , eg sporting, arts, community services , maybe there should be separate funds for sporting, and arts cultural and environmental initiatives

there is also no indication of the amount Council has for this funding.

#### 1.9.1 Community Q2

Yes

Please explain why you support or do not support the proposed eligibility and assessment framework.

General support for eligibility and assessment criteria. Funding should go to genuinely local groups and individuals for betterment of the local community

### 1.10 Waste management and Minimisation Plan

Yes

Is there anything else you would like to tell us about this plan?

General support for Waste management and Minimisation Plan, Council could submit to Central Government on reducing packaging and making more packaging biodegradable.

Try and sort more construction and building waste , and have places at Landfill sites to store re-usable materials.

#### 1.11 Any other feedback?

Regarding traffic congestion, second bridge. Most of this problem could be avoided if parents/carers did not drive their children to school, multiple benefits of walking /cycling taking the school bus should be publicised.

Western bays (Omori, Kuratau, Pūkawa, Whareroa)

#### 1.2 Next 10 Years

Agree with the plan

What do you think we should do more/less of? (be specific)

Rubbish collection. Stay with bag it in area with predominantly holiday homes and older residents. Long driveways and bins don't work!

Replace or refurbish public toilets, particularly Turangi centre which is appalling.

improve water quality - no more geosim

#### 1.4 Tūrangi Wastewater

Agree

#### 1.5 Taupō North Wastewater

Agree

#### 1.6 Bag it or Bin it

Strongly Disagree

##### 1.6.2 Strongly Disagree

Strongly Agree

Is there anything else you would like to tell us about this issue?

proposed option is useless for holiday homes. People leave bags out now when they leave .. bins would be left for other residents to deal with after collection. Depending on bin they could be left for 2 weeks.

Long driveways + bins are more difficult for elderly and permanent residents are largely older group.

## 1.7 Housing

Agree

## 1.7.3 Agree

homes need garages or car ports and good fencing if intended for families with young children

## 1.8 Development Contributions

Yes

Is there anything else you would like to tell us about this strategy?

## 1.10 Waste management and Minimisation Plan

Yes

Is there anything else you would like to tell us about this plan?

## 1.11 Any other feedback?

Turangi town centre needs some work done to make it more welcoming to visitors. Like the toilets it has slowly degraded over 20 years we have lived here.

The cobbled paving by parking area outside old bank is lifting badly and is a trip hazard.

Is there anything else you would like to tell us about this issue?

I have a property in a private subdivision in Kinloch - "The Poplars" 500 Kinloch Rd.

The current system works well for the residents as it is easy to take rubbish bags and recycling bins to the main gate of the subdivision. (the private road is over 2km to the last house so getting wheelie bins to the entrance would be problematic).

Key issues that I see:

- 1) Getting the bins to the front gate for collection in a private subdivision with up to 2km to the collection point.
- 2) The Poplars subdivision has 50 odd bags for collection at the roadside each week. How would 50 wheelie bins be lined up for the truck to be able to automatically empty them?
- 3) 50 wheelie bins on the narrow Kinloch road will potentially be a traffic hazard.

4) There are a number of private subdivisions in Kinloch that will have the same issues as The Poplars.

5) Kinloch has a high proportion of holiday home / Air BnB properties where the rubbish is left out when people leave therefore there is nobody to take the bins in off the road.

Overall I believe Kinloch has different requirements to the City. The yellow bags and recycling bins works best for us - one solution does not work well for all.

### Feedback

1.1 Local Community  
Taupō

1.2 Next 10 Years  
Agree with the plan

What do you think we should do more/less of? (be specific)

1.4 Tūrangi Wastewater  
Agree

1.5 Taupō North Wastewater  
Agree

1.6 Bag it or Bin it  
Strongly Disagree

1.6.2 Strongly Disagree  
Agree

Is there anything else you would like to tell us about this issue?

Having waste collections fortnightly will be a challenge to people with holiday homes, as it would mean that either recycling or waste is collected - which means that we will have to go to the dump to get rid of waste, as we are likely to not be around the next week. Bringing a wheelie bin in is a challenge if we are not around. It is better to keep it as is and pay for what you use. Food scrap bins wont get used as we have a compost and will also be a pain to bring in if we arent there to collect.

1.7 Housing  
Agree

1.7.3 Agree

But need to make sure there are no infrastructure upgrade costs to the council for housing as this is a large burden to Kainga Ora for their developments in Auckland. Strict urban design criteria need to be placed on houses so they suit the environment, as again, in Auckland the Kainga Ora houses often look ugly and bulky.

1.8 Development Contributions

Yes

Is there anything else you would like to tell us about this strategy?

---

### 1.9 Community Funding

Yes

Please explain why you agree or disagree with these changes.

1.6 Bag it or Bin it  
Strongly Agree

1.6.3 Strongly Agree

Wheelie bins for both general waste and recycling are the norm in many places, it will save ratepayers money in the long term as well as being convenient and helps to prevent the ridiculous amount of rubbish on the streets of our town because of bags being ripped open by animals or not being tied/containing sharp objects

1.6.2 Strongly Disagree  
Strongly Agree

Is there anything else you would like to tell us about this issue?

As a holiday home owner (we are up in Taupo at least once a month), the proposed plan absolutely does not work for us. We would end up paying significantly more for rubbish and recycling removal as a) it will be included in our rates, and b) as we have to do our own rubbish / recycling drops offs anyway and pay for it at the tip, we would be in effect paying double costs. Plus, being a holiday home, all bins (including recycling bins) are placed in the garage when we leave the house to return to Wellington. We have nowhere to store the wheelie bins as they are large (we have them in Wellington and are totally familiar with how they operate) and cumbersome to manoeuvre in and out of door ways. Plus, you can't fit them in a standard vehicle to take it to the tip - you'd need to strap them tightly in to the back of a flat deck truck or ute - which then will cause a H&S issue with lifting heaving items. Absolutely disagree with the Proposed Option. Keep the bags and how things are at present please.

Please explain why you support or do not support the proposed eligibility and assessment framework.

## 1.10 Waste management and Minimisation Plan

Yes

Is there anything else you would like to tell us about this plan?

## 1.11 Any other feedback?

I think town centre needs a upgrade. More clothes shops & less hokohoko shops because not many people go into the shops we have now.

Invest in motorbike tracks so the fields don't ripped up and horse tracks so people riding their horses don't go riding through town.

Bag It

First up we are in a Cost of Living Crises, If you weren't already aware of this.

Now, you are wanting to increase rates for "Pensioners who are on a fixed income" by increasing waste disposal.

You are increasing the cost from \$156.00 per year to \$366.00 per year....Where do you think this money is going to come from especially after 2024 rates increase of 19%...?

I do not want a separate bin for food scraps and WILL NEVER use it. We have a Waste disposal unit that handles this for us.

Land Disposal

Land Disposal South of Richmond Heights should be sold immediately..You are not in the Property Development Business...Sell it to REDUCE DEBT to minimise Rates Increases.

Taupō

1.2 Next 10 Years  
Agree with the plan

What do you think we should do more/less of? (be specific)

1.4 Tūrangi Wastewater  
Agree

1.4.4 Agree  
*Not keen to see council take on Debt*

1.5 Taupō North Wastewater  
Disagree

1.6 Bag it or Bin it  
Disagree

1.6.1 Disagree  
Agree

Is there anything else you would like to tell us about this issue?

In some ways I like toe wheelie bin option for ease but wonder at the cost of buying them.

The 240l bin for recycling seems excessive.

I would not use the food recycling option as I compost so would pay for something I didn't use.

I would like to have an understanding how much the new system would cost compared to the current cost of buying bags and stickers

Positive would be more automation in collection and less manual handling, less workers could be a negative for those currently employed

## 1.7 Housing

### Strongly Agree

#### 1.7.4 Strongly Agree

Selling land outright to developers is not an option in my view, I support your proposal for affordable housing

## 1.8 Development Contributions

Yes

### Feedback

#### 1.1 Local Community

Broadlands, River Road and surrounding rural area

##### 1.11 Any other feedback?

Below are some of my thoughts regarding the 10 Year Plan.

These are matters I would like to see addressed in the next 10 Years, that relate directly to our community, these include:

Good lighting to improve overall safety:

On the road in general – currently we often have to wait months after a street light is reported as not working before something is done, this just would not happen in the urban area.

Broadlands Road intersection – the current lighting is totally insufficient and presents a significant danger to traffic. This is a rural area which is in heavy fog much of the winter, the intersection beyond River Road is much more visible despite being further away.

Security (sensor?) lighting at the boat ramp area would be likely to deter dubious activity.

A Security Camera: located at the entrance/exit of the River Road intersection would be likely to improve security and safety.

Judder Bar/s: speeding traffic presents a danger, especially to the children on the street.

During the summer farming contractors with tractors/trailers/haymaking gear etc tend to speed as does some of the regular traffic. The speed limit is often ignored; however, the use of judder bar/s may be an effective option.

Toilet Facility: many people use the River Road boat ramp through the year. A toilet facility is needed for hygiene reasons, as people are using the reserve and general area for toileting. This is unpleasant and a health hazard.

Concrete Access from Road to Property Boundaries: This is general expectation in residential areas – why not River Road?

River Road is a unique community. It has been great to see the work done recently to unify our community and make good use of the amenities we have.

Attention to the points raised above will improve the health, safety and aesthetics for residents.

#### 1.10 Waste management and Minimisation Plan

Yes

Is there anything else you would like to tell us about this plan?

#### 1.11 Any other feedback?

Cat bylaw. Cats are destroying our native fauna. Community groups area spending thousands of dollars and thousands of volunteer hours on trapping for pests in our areas. However, our main pest is cats - both feral and domestic. We need a strong bylaw that is effective and similar to other districts that have already put these into place while we are waiting for a national solution. Simple solution - microchipping and registration of all domestic cats same as for dogs. Then phasing in over the next 10 years of requiring existing cats to be initially on a curfew of being indoors from 8pm to 8am (to stop them roaming and killing all night long for days on end), then requiring all new cats to be either on lead for walking, or in a cat-patio if outdoors. This will enable transition of existing cats as they age naturally and die and ensure all new kittens and cats are used to the indoor life. This will make a massive positive impact on our environment, more so than stopping single use cups etc. This has been done in multiple locations around the world already with very positive effects. Cats carry disease - Toxoplasmosis. This disease causes fetal abnormality and miscarriages and other issues such as infections to immune comprised individuals. By restricting cats to the owners property, it will reduce the spread of this disease as well as many other nuisances such as them defecating and spraying on other peoples properties. We need to stop pussy footing around this cat issue.

Second dwelling on existing sites - this is currently been discussed at the national level. This should be approved in TDC district plans. Currently Kinloch is restricted to one dwelling per section. By allowing a second dwelling (stand alone or connected in some way to the main house) would ensure good use of land and address any housing issues we have in the area.

**First name:** Peter

**Last name:** Mitchell

**Would you like to present your submission in person at a hearing?**

I do NOT wish to speak in support of my submission and ask that the following submission be fully considered.

### Feedback

1.11 Any other feedback?

I am a bicycle tour operator based in Rotorua, operating tours on the Waikato River Trails, Timber Trail, and Great Lake Trail. My company runs a 5-day trip that includes sections of the Waikato River Trail, Timber Trail, and Great Lake Trail, bringing groups of approximately 10 people six times a year. Additionally, we frequently pass through the area with groups participating in the Kopiko Aotearoa and the Tour of Aotearoa. Each time we conduct our 5-day trip, we contribute \$10,480 to local food, accommodation, and vehicle rental businesses.

I would like to propose the following improvements for consideration in your 10-year plan:

#### Waikato River Trail

- **Safety Improvements Near Waipapa Dam:** Since the closure of the trail south of Jones Landing beside Lake Arapuni, the trail has been rerouted to the western side of the lake. While this is a beautiful ride through the fantastic Waikato countryside, the 5-kilometer section directly north of the Waipapa Dam needs to be made much safer for cyclists. I suggest installing signs to encourage motorists to maintain a 1.5-meter distance from cyclists and alerting motorists to the presence of cyclists on this road. Ideally, an off-road margin could be created. The road is often wet and mossy as it seldom receives direct sunlight in the winter.
- **Surface Repairs:** The section between Waipapa Dam and Mangakino has been significantly damaged by weather. Surface repairs are needed to improve safety and usability. The J Swap donation on the southern end of the trail is a fantastic contribution.

#### Aratiatia Loop Track

- **Surface and Accessibility Improvements:** This trail has great potential and could rival the Whakarewarewa Loop Track in terms of interest and visitation. However, the surface on the eastern side, north of Huka Falls, needs repairs and widening. Enhancing the trail to accommodate three-wheeled accessibility bicycles would greatly increase its appeal and usability.

#### The Timber Trail

- **Maintenance and Management:** Although currently under the Department of Conservation's responsibility, the southern half of the Timber Trail requires significant attention. The trail is plagued with deep puddles and severe rutting, particularly around the deer farm fencing at the Ongarue end. I

propose that the trail be placed under a trust, which would manage maintenance and development decisions based on available funds.

### **Mangakino Security**

In the recent past I have raised concerns about property security in Mangakino with the local police after an incident related to ebikes last summer. They noted my concerns and seemed well appraised of the characters and situation.

I commend the council for its support and development of trails within your local government area. I am confident that these trails will prove to be valuable assets, providing economic and recreational benefits in the coming years.

Thank you for considering my submission.

to connect the southern end of the Te Awa Trail with the northern end of the Waikato River Trail as at present there is a very uncomfortable road stage between them on Mangatautari Rd. If this was archived, then the Tour of Aotearoa could have an alternate route through Ngaruawahia, Hamilton, Cambridge.

### Feedback

#### 1.1 Local Community

Mangakino, Whakamaru and Atiamuri

#### 1.2 Next 10 Years

Do less

What do you think we should do more/less of? (be specific)

Increase the Development Contribution revenue immediately - 4% of revenue contribution is pitiful

There appears to be a complete lack of empathy and respect toward the ratepayers who fund the Council -

Suggesting that "doing less mowing and weeding" **etc.** will somehow keep the cost of rates down is insulting. What keeps rates down is at the macroeconomic level of Council - 1. Greater internal efficiencies, 2. More efficient administration 3. Increasing development contributions. 4. Reforming the expenditure on back-office (policy, strategic and community leadership) 5. Improving expenditure management so that the limited resources go further.

**No Council has NOT got the balance right!**

#### 1.4 Tūrangi Wastewater

Agree

##### 1.4.4 Agree

I don't live in Turangi - but sewerage management is one of the primary responsibilities of Local Government under

LGA - Kinloch seems to be able to get its sewerage needs met not sure why Council is dithering where Turangi is concerned. In my experience the longer Council takes to make up its mind the more expensive the project becomes. Turangi should be getting the best that can be afforded and people down there need to stop mucking around. Again I cannot understand why DCs are not increasing to cover costs of things like this -

#### 1.5 Taupō North Wastewater

Agree

#### 1.6 Bag it or Bin it

Disagree

## 1.6.1 Disagree

Agree

Is there anything else you would like to tell us about this issue?

I am concerned about the cost of the wheelie bin system - I am concerned about the smell of rotting food in bins and increase of vermin like mice and rats - I am concerned that it will increase the number of people throwing rubbish on roadsides and down banks on the river etc. I am concerned about biohazard filth in nappies and other unsanitary disposal. There has to be a better way. If not then leave it as it is. -

## 1.7 Housing

Strongly Disagree

## 1.7.2 Strongly Disagree

Agree

Is there anything else you would like to tell us about this issue?

Council should not be in the business of providing/and/or building homes for first home buyers - these folk are not responsibility of local government. It is central government's business to look after housing - not local government - Sell land if appropriate - encourage developers and development.

## 1.8 Development Contributions

No

Is there anything else you would like to tell us about this strategy?

Not if it is staying at 4% of revenue - DCs need to be a lot higher -

## 1.11 Any other feedback?

I feel very strongly about Taupo Council raising our rates this year! Many of the services have not actually changed or increased in value or quality. And yet what we are seeing more and more -A council which appears to have a view that they need more money so ratepayers can pay more! This is an unjust and iniquitous attitude - grossly unfair and morally reprehensible to keep demanding more tax money every year! Because the Council does not have the wherewithal to cut costs and live within its budgets.

And let us not forget that TDC ratepayers are also expected to fund the Regional Council as well!! - I think these Regional Council entities should be dispensed with altogether - and territorial authorities subsume the responsibilities, duties and powers of the regional council - .

Western bays (Omori, Kuratau, Pūkawa, Whareroa)

1.6 Bag it or Bin it

Disagree

1.6.1 Disagree

Agree

Is there anything else you would like to tell us about this issue?

A few comments on rubbish collection in Pukawa, and perhaps a suggestion:-

1/ There are very few permanent residents in Pukawa and most of the houses are used occasionally, often with household rubbish taken home on leaving.

2/ If wheelie bins were used as planned, many of them would remain empty on the kerbside for weeks between house visits. Firstly, this could indicate that the houses are unoccupied and could encourage break-ins, and secondly, the waste management collectors would have to check the content of each bin or alternatively “ empty “ already empty bins. Thirdly, the township would be permanently littered with large numbers of bins

3/ A number of houses, ours included, have difficult street access for hauling large bins on and off.

My suggestion is that a number of sites, maybe around 20, could be selected for the township, and multiple bins left at these sites for collection. Residents should easily walk maybe 50 yards to dispose of refuse in these bins, it would be very much easier for the rubbish collection team, and the township would not be permanently littered

**I live at The Poplars in Kinloch, the wheelie bin option can only be given consideration if council provides a kerb side collection for residents at their houses within The Poplars. For those that do not live near the current collection point, ie at the Kinloch road entrance - we would struggle to drag a wheelie bin the considerable distance to the front gate from our homes.**

**The current system of prepaid bags and recycle bins at the front entrance is the most convenient and suitable option for the residents of The Poplars.**

Do less

What do you think we should do more/less of? (be specific)

Focus more on local issues, rather than government national proposals, such as fluoridating water. please be more transparent where our tax money is spent and where it goes. For instance, how much do the 6 shareholders of the Taupo Council receive, if they don't even live in Taupo, or how much do they contribute? We would like more public input in matters. Also all your rates increases will cripple our community, make your actions for the PEOPLE! If you are running out of money and need to increase fees across the board, then maybe the whole current system is not working, begin to think more out of the box for solutions, with a focus on your community!

Do more composting workshops, teach people to turn their own food scraps to compost. More education around recycling, so that your general household rubbish becomes less. We have a household and a cafe, yet our combined landfill rubbish is about one black bag a week, which we take to the dump ourselves and at the same time sort our recycling at the dump ourselves. It is possible to take more responsibility for your own rubbish. If you have time to shop, you should have time to dump. It's about education

1.11 Any other feedback?

Fees for the pool shouldn't be increased along with the increase in sports teams hiring sports grounds. How can we as a district ensure that there is equal opportunities for all our children and families to play sport and it not be financial burden and not choosing because they can't afford it. For my family of 5, where we are on one wage as the other adult is studying, a trip to the pool with your 20% increase will price us out of that being an affordable option for our family at this time.

Yes I understand that it will decrease the rate and user pays, but who will be worst off because of this decision.

### Feedback

1.1 Local Community  
Taupō

1.6 Bag it or Bin it  
Agree

1.6.4 Agree

The district is way behind in this. I travel regularly throughout NZ and our district is one of the few still using plastic bags for refuse collection. Bins keep the surrounding areas much cleaner and makes it fair for everyone, we have more than one sneaky neighbour in our street who regularly dump their rubbish in our privately funded bin. I note many areas have a weekly bin collection for rubbish and fortnightly for recycling which would work well in our district I'm sure.

Disagree

1.6.1 Disagree  
Agree

Is there anything else you would like to tell us about this issue?

As a holiday home owner in Kinloch, I am against the proposed option (bin-it), and support the alternative option (bag-in).

Reasons: issue getting wheelie bins back in from kerbside (if leaving); increased costs for the bins when compared to lower cost for bags (and only having to pay for bags as we need when staying in Kinloch).

### Feedback

1.1 Local Community

Western bays (Omori, Kuratau, Pūkawa, Whareroa)

1.2 Next 10 Years

Agree with the plan

What do you think we should do more/less of? (be specific)

1.4 Tūrangi Wastewater

Strongly Agree

1.5 Taupō North Wastewater

Agree

1.5.4 Agree

Neutral response as reside in Western Bays area

1.6 Bag it or Bin it

Strongly Disagree

1.6.2 Strongly Disagree

Strongly Agree

Is there anything else you would like to tell us about this issue?

The provision of multiple bins to part time residents of the Western Bays is completely surplus to requirements, the bin capacities are unlikely to be utilised, and would impose a significant burden of permanent bin storage against the relatively infrequent partial use case. The bags and current open recycling bins offer flexibility and impose minimal storage burden (stackable bins). While understanding that the bin proposal makes sense in the urban areas, the solution actually creates a larger and different problem for Western Bays residents.

1.7 Housing

Agree

1.10 Waste management and Minimisation Plan

Yes

Is there anything else you would like to tell us about this plan?

#### 1.11 Any other feedback?

Yes - the service levels received in Western Bays areas are generally very good given the distance from Taupo itself. Please accept thanks from at least one grateful ratepayer :)

### Feedback

1.1 Local Community  
Taupō

1.2 Next 10 Years  
Agree with the plan

What do you think we should do more/less of? (be specific)

Spend more on public housing for the local homeless. No one should be without a secure, warm, comfortable home, no matter how humble; and not having to sleep rough because there is no public home available to live in

1.4 Tūrangi Wastewater  
Strongly Agree

1.5 Taupō North Wastewater  
Strongly Agree

1.6 Bag it or Bin it  
Agree

1.6.4 Agree

For residents of a first world country to have, by necessity of no other option, to put their household waste in a plastic bag, tie it up and leave it on the curb is very sub-standard to say the least. There should be no other option than to have sturdy and robust bins supplied by our contribution by way of our annual rates supplied and collected as per the Taupo City Council 2025 proposal.

1.7 Housing  
Strongly Agree

1.7.4 Strongly Agree

Just get on and build them !!!

Do less

What do you think we should do more/less of? (be specific)

I agree with a larger recycling bin, but by providing a bin for rubbish it will only increase costs to some households and encourage more waste to landfill. I prefer user pays for this.

1.4 Tūrangi Wastewater  
Agree

1.5 Taupō North Wastewater  
Agree

1.6 Bag it or Bin it  
Disagree

1.6.1 Disagree  
Disagree

Is there anything else you would like to tell us about this issue?

Why not add a recycling bin, and keep user pays for rubbish bags, by having the bin I can only see it encouraging landfill waste

1.7 Housing  
Disagree

1.7.1 Disagree  
Agree

Is there anything else you would like to tell us about this issue?

Not Quite understanding this, I can't see why the council would need to outlay anything for this? unless they are providing loans?

## 1.8 Development Contributions

No

Is there anything else you would like to tell us about this strategy?

1.6.2 Strongly Disagree  
Strongly Agree

Is there anything else you would like to tell us about this issue?

The problem with having recycling going into a wheelie bin is all sorts of rubbish will find its way into these. Particularly people who are holidaying. As for wheelie bins for rubbish.....this will not encourage people to reduce their waste. If anything I'm sure they will place all sorts in them(garden waste etc).

### Feedback

1.1 Local Community  
Taupō

1.2 Next 10 Years  
Agree with the plan

What do you think we should do more/less of? (be specific)

More advertising of events. Usually I hear about some events a couple of days prior ie the equestrian competition in April/May, rescue helicopter dog trials - had to google extensively to find out about this etc

1.4 Tūrangi Wastewater  
Strongly Agree

1.4.3 Strongly Agree

What is the long-term plan?

1.5 Taupō North Wastewater  
Strongly Agree

1.6 Bag it or Bin it  
Strongly Agree

1.6.3 Strongly Agree

I've used the bin system in Auckland and it worked really well, however, education regarding the food scraps is a lesson that some people are not interested in. I also use a worm farm so have virtually not food scraps in any given week. Perhaps some well-advertised worm farming or composting workshops might be a consideration, with discounts for those who purchase said items from the workshop.

1.7 Housing  
Strongly Agree

1.7.4 Strongly Agree

Have you considered rent to buy for those passing an eligibility criteria?

1.8 Development Contributions  
Yes

Is there anything else you would like to tell us about this strategy?

#### 1.9 Community Funding

Yes

Please explain why you agree or disagree with these changes.

The proposal appears to be fairer and more transparent

#### 1.9.1 Community Q2

Yes

Please explain why you support or do not support the proposed eligibility and assessment framework.

As above.

#### 1.10 Waste management and Minimisation Plan

Yes

Is there anything else you would like to tell us about this plan?

What about plastic recycling? No one in Taupo collects it so what other options are being considered. Have you also checked out the recycling system being used at the new Inghams construction site on the corner of Spa Road, opposite Property Brokers. Other construction sites - both commercial and residential - could learn lessons from this.

#### 1.11 Any other feedback?

The sewage system gets overloaded in summer and the smell from the lines is quite off-putting for those living near the gully between Richmond Heights and the new retirement village at Kokomea.

1.2 Next 10 Years  
Agree with the plan

What do you think we should do more/less of? (be specific)

Less spending on areas that are not essential, like art work at the airport and a huge Po in the center of town.

1.4 Tūrangi Wastewater  
Agree

1.5 Taupō North Wastewater  
Agree

1.5.4 Agree  
You have little choice but agree as there seem no other options.

1.6 Bag it or Bin it  
Strongly Agree

1.6.3 Strongly Agree  
The simple removal of all those plastic rubbish bags is going to make a polarbear smile somewhere! Please institute a replacement clause that is directed to the SINGLE household/ business that needs a replacement.

1.7 Housing  
Strongly Disagree

1.7.2 Strongly Disagree  
Disagree

Is there anything else you would like to tell us about this issue?

The difference between the proposals and alternative are too marked. Attempting to solve the housing crisis with ratepayers money is a bunt at best and a very risky move at worst. Why sell all land?

Let it go if you must but do it in parcels liek a real developer would do.

**Would you like to present your submission in person at a hearing?**

I do NOT wish to speak in support of my submission and ask that the following submission be fully considered.

### Feedback

#### 1.1 Local Community

Western bays (Omori, Kuratau, Pūkawa, Whareroa)

#### 1.2 Next 10 Years

Do more

What do you think we should do more/less of? (be specific) Walkways , lake edge preservation . rubbish

#### 1.4 Tūrangi Wastewater

Agree

#### 1.4.4 Agree

no

#### 1.5 Taupō North Wastewater

Agree

#### 1.5.4 Agree

no

#### 1.6 Bag it or Bin it

Disagree

#### 1.6.1 Disagree

Strongly Agree

Is there anything else you would like to tell us about this issue?

Spend the increase rate costs for bins on other matters more important . eg rubbish bins at lake edge, dog bins and recycling bins. Not just there at xmas but all year

#### 1.7 Housing

Disagree

#### 1.7.1 Disagree

Agree

Is there anything else you would like to tell us about this issue? no

#### 1.8 Development Contributions

No

Is there anything else you would like to tell us about this strategy? no

#### 1.9 Community Funding

No

Please explain why you agree or disagree with these changes. no

#### 1.9.1 Community Q2

No

Please explain why you support or do not support the proposed eligibility and assessment framework. no

#### 1.10 Waste management and Minimisation Plan

Yes

Is there anything else you would like to tell us about this plan? no

#### 1.11 Any other feedback?

no

Taupō

1.2 Next 10 Years  
Agree with the plan

What do you think we should do more/less of? (be specific) Ensure value for money within the council.

1.4 Tūrangi Wastewater  
Strongly Agree

1.5 Taupō North Wastewater  
Agree

1.6 Bag it or Bin it  
Disagree

1.6.1 Disagree  
Agree

Is there anything else you would like to tell us about this issue?

1.7 Housing  
Agree

1.7.3 Agree

I'm very keen to understand how the council is considering the impact on our roads and neighbourhoods of opening additional land for housing.

1.9 Community Funding  
Yes

Please explain why you agree or disagree with these changes.

The criteria publicised for any grant must be the criterial. The selection committee MUST not develop their own criteria.

## 1.9.1 Community Q2

Yes

Please explain why you support or do not support the proposed eligibility and assessment framework.

### Feedback

1.1 Local Community  
Taupō

1.2 Next 10 Years  
Do less

What do you think we should do more/less of? (be specific)  
please just concentrate on the things you have to do. We are struggling so much.

1.4 Tūrangi Wastewater  
Strongly Agree

1.4.3 Strongly Agree  
cheapest option please

1.5 Taupō North Wastewater  
Strongly Agree

1.5.3 Strongly Agree  
again, do the cheapest option for now.

1.6 Bag it or Bin it  
Strongly Disagree

1.6.2 Strongly Disagree  
Agree

Is there anything else you would like to tell us about this issue?  
please do not do this now. The timing is not right because we cant afford extra cost right now. User pays makes sense. It also helps minimise waste. Please please do not let this go through and please stick with bags and user pays.

1.7 Housing  
Strongly Disagree

## 1.7.2 Strongly Disagree

Disagree

Is there anything else you would like to tell us about this issue?

hold onto the land. Once it is gone it is gone. This is not what council should be focussing on

## 1.8 Development Contributions

No

Is there anything else you would like to tell us about this strategy? i dont know what this is all about im sorry

## 1.9 Community Funding

Yes

Please explain why you agree or disagree with these changes.

## 1.9.1 Community Q2

Yes

Please explain why you support or do not support the proposed eligibility and assessment framework.

## 1.10 Waste management and Minimisation Plan

No

Is there anything else you would like to tell us about this plan? need more in there about waste diversion

## 1.11 Any other feedback?

please cut back on doing anything that isnt crucial right now. Stick with rubbish bags, stop construction work re housing, just do the essentials as you say you want to focus on. Thank you

1.6.1 Disagree  
Strongly Agree

Is there anything else you would like to tell us about this issue?

We have had a holiday home in Acacia Bay for over 30 years and find the present system suits our needs. We live in Wellington where we have the option of having a yellow lid bin for our recycling or a clear plastic bag. We use a clear plastic bag. In Wellington we use yellow plastic bags for our rubbish and never had any problem.

Many years ago we used to have trouble with cats getting into our rubbish bags in Taupo and the TDC was to look at producing bags with a smell to deter cats. Nothing happened. However over recent years we have never had any problems with cats getting into our bags.

If we not in Taupo Sunday night we take our rubbish home and keep the green and black bins for the next time we in Taupo on a Sunday and Monday. Under the proposed bin system we would in effect be subsidising permanent residents for their weekly rubbish collections. We already subsidise permanent residents for sewage and water

1.7 Housing  
Strongly Disagree

What do you think we should do more/less of? (be specific) less stuff for tourists and more for locals

1.6 Bag it or Bin it  
Strongly Disagree

1.6.2 Strongly Disagree  
Agree

Is there anything else you would like to tell us about this issue?

the new proposal is great for business or houses with families that create a lot of rubbish. We create one yellow bag a month and live over 500m away from our rubbish collection area so a wheelie bin would be useless. Being a working couple we get nothing from the government and now it seems the council are following the government.
