11. Budget: Funding has been provided for the TDC hireage of the Theatre, plus the four security guards that TDC have requested for this event.

12. Other core components:
 - 12.1 This meeting has been advertised by newsletter and local flyers handed to local friends in Taupo around by volunteers.
 - 12.2 Control of people arriving and entering the building will be restricted to one door only. Know as the Banana Door at the west end of the foyer, where one security guard will be stationed.
 - 12.3 Guests will be greeted and welcomed by the organisers. Outside if it is fine, or inside the foyer on a wet evening. All guests will be then let into the Theatre or asked to leave.
 - 12.4 The objective of this security plan is to ensure that peace and quiet is maintained, to allow the presenter to inform the meeting guests his message.

There will also be question time for the guests before the end of the meeting.
Guests will then retire from the building and travel home etc.

12.5 Execution: The Four security guards will be allocated specific areas to be watched and maintained for the duration of the meeting time (Five hours). Senjo Securities is familiar with the GLC requirements, site plan and doors etc of importance.

Two risk elements were identified and the Police have taken charge of both.

Details for both the Safety Management Plan and the Event Security Plan were confirmed. The assessed risk was medium for this meeting.
