## Submission

**The specific parts of the application that my submission relates to are:**

The sizing of the sections within the subdivision are below what the taupo district council have already agreed within the Kinloch basin. The council have a duty to kinloch and its residents to uphold their plan and reject this proposal. Kinloch residents do not object to having the subdivision but the underhanded way the developer constantly puts in new plans in the hope people will give up objecting is tiresome and frankly starting to really get the local residents offside his development completely. Just make the sections the minimum size and stick to 16 sections NOT 68!

**My submission is:**

In opposition of the application or specific parts of it

**Please detail the reasons for making your submission:**

The developer is constantly pushing for more sections which go against the council district plan. If TDC let's this go through they are making a mockery of their entire process and are opening up Kinloch to become a place where people don't actually want to live as there has been no regard for their lifestyle and the reason people come here in the 1st place.

This is not the 1ST time he has done this, and the council should just say no until he can get the correct sizing . We will keep protesting until TDC do the right thing and make the developer do the right thing!

Alternatively, please upload document detailing the reasons for making your submission:

**I seek the following decision from the Taupō District**

Reject the proposal with undersized sections. If developer

**Council:**

does correct size sections then we have no issue with it continuing.

**Do you wish to attend the hearing?**

No

**Delegation of functions, powers and duties:**

I do not request, pursuant to section 100A of the Act, that you delegate your functions, powers, and duties to hear and decide the application to 1 or more hearings commissioners who are not members of the local authority.
